## ANGLO-JAP ALLIANCE

TEXT OF THE NEW AGREEMENT  
BETWEEN THE ISLAND EM-  
PIRES MADE PUBLIC.

## TREATY PLEASURES BRITONS

FRONTIERS OF INDIA GUARDED  
FROM AGGRESSION BY ANY  
FOREIGN POWER.

London, Sept. 27.—The text of the  
new agreement between Great Britain  
and Japan, which was signed by Lord  
Lansdowne, the British foreign secre-  
tary, and Baron Hayashi, the Japa-  
nese minister to Great Britain, on  
Aug. 12, was issued by the foreign of-  
fice late Tuesday evening. The mo-  
mentous document is a brief one, com-  
prising less than 800 words, including  
eight articles and a preamble.

Accompanying the agreement is a  
covering letter from Lord Lansdowne  
to the British ambassadors at St. Pe-  
tersburg and Paris, for transmission  
to the Russian and French govern-  
ments respectively, in which the for-  
eign secretary courteously reviews  
the agreement and carefully points  
out that the new defensive alliance is  
not intended as a menace but rather  
as a guarantee of peace and prosperity  
in the far East, in which all countries  
may participate.

The main features of the new agree-  
ment have already been forecasted in  
press dispatches from London and  
Paris. The pithy articles of the of-  
ficial text, however, bring out forcefully  
the tremendous importance to both  
countries of this alliance, which prac-  
tically makes Great Britain Japan and  
Japan Great Britain for the purpose  
of defense "in the regions of East  
Asia and India."

This inclusion of India specifically  
as a point at which any aggression by  
a foreign power will call for the as-  
sistance of Japan, finds much favor  
with the press of London, the morn-  
ing papers, in long laudatory articles  
welcoming the new and more exten-  
sive alliance of the two insular king-  
doms west and east as giving imme-  
diate relief from the dangerous thun-  
dercloud which for so many years has  
hung over the Indian frontier.

### Relief Felt in London.

While there is some criticism of  
the treaty in the radical newspapers,  
it is only half-hearted and as a whole  
London, which has been anxiously  
awaiting the breaking of official  
silence with regard to the document,  
heaves a sigh of relief and greets with  
great satisfaction the positive assur-  
ance of the future assistance of a  
powerful Oriental ally in all matters  
pertaining to far Eastern politics.

The preamble to the treaty reads:  
"The governments of Great Britain  
and Japan, being desirous of replac-  
ing the agreement concluded between  
them January 30, 1902, by fresh stipu-  
lations, have agreed upon the follow-  
ing articles, which have for their ob-  
ject:

"A—Consolidation and the main-  
tenance of general peace in the re-  
gions of Eastern Asia and India.

"B—The preservation of the com-  
mon interests of all the powers in  
China by ensuring the independence  
and integrity of the Chinese empire  
and the principle of equal opportu-  
nities for the commerce and industry  
of all nations in China.

"C—The maintenance of the terri-  
torial rights of the high contracting  
parties in the regions of Eastern Asia  
and of India and the defense of their  
special interests in the said regions."

The text of the treaty is as follows:  
"Article 1—It is agreed that when-  
ever, in the opinion of either Great  
Britain or Japan, any of the rights or  
interests referred to in the preamble  
to this agreement are in jeopardy, the  
two governments will communicate  
with one another fully and frankly  
and will consider in common the  
measures which should be taken to  
safeguard those menaced rights or in-  
terests.

### Must Conduct War Together.

"Article 2—Should either of the  
high contracting parties be involved  
in war in defense of its territorial  
rights or special interests the other  
party will at once come to the as-  
sistance of its ally and both parties  
will conduct a war in common and  
make peace in mutual agreement  
with any power or powers involved  
in such war.

"Article 3—Japan possessing para-  
mount political, military and economic  
interests in Korea, Great Britain re-  
cognizes Japan's right to take such  
measures for the guidance, control  
and protection of Korea as she may  
deem proper and necessary to safe-  
guard and advance those interests,  
providing the measures so taken are  
not contrary to the principle of equal  
opportunities for the commerce and  
industry of all nations.

"Article 4—Great Britain having a

special interest in all that concerns  
the security of the Indian frontier,  
Japan recognizes her right to take  
such measures in the proximity of that  
frontier as she may find necessary  
for safeguarding her Indian posses-  
sions.

"Article 5—The high contracting  
parties agree that neither will with-  
out consulting the other enter into a  
separate arrangement with another  
power to the prejudice of the objects  
described in the preamble.

"Article 6—As regards the present  
war between Japan and Russia, Great  
Britain will continue to maintain  
strict neutrality unless some other  
power or powers join in hostilities  
against Japan, in which case Great  
Britain will come to the assistance of  
Japan, will conduct war in common  
and will make peace in mutual agree-  
ment with Japan.

"Article 7—The conditions under  
which armed assistance shall be af-  
forded by either power to the other in  
the circumstances mentioned in the  
present agreement and the means by  
which assistance shall be made avail-  
able will be arranged by the naval  
and military authorities of the con-  
tracting parties, who will from time  
to time consult with each other freely  
on all questions of mutual interest.

"Article 8—The present agreement  
shall be subject to the provisions of  
Article 6 and come into effect imme-  
diately after the date of signature and  
remain in force ten years from that  
date. In case neither of the parties  
shall have been notified twelve months  
before the expiration of said ten  
years of an intention of terminating  
it, it shall remain binding until the  
expiration of one year from the day  
on which either of the parties shall  
have denounced it, but if when the  
date for the expiration arrives either  
party is actually engaged in war the  
alliance shall be ipso facto and continue  
until peace shall be concluded."

### FIRST AUTHENTIC INTERVIEW.

Baron Komura Finally Talks for Pub-  
lication.

New York, Sept. 27.—Baron Komura,  
the senior Japanese peace plenipoten-  
tiary, gave Tuesday night the first  
authentic interview since he has been in  
this country on the peace mission and  
which he said would be the last one.  
Baron Komura feels deeply grateful  
for many courtesies and kindnesses  
extended during his visit, and com-  
mended highly President Roosevelt's  
successful efforts in bringing the re-  
presentatives of Japan and Russia to-  
gether. The baron said:

"In leaving this country for home,  
I feel it my duty to express to the  
people of the United States through  
the medium of the Associated Press  
an assurance of my sincere and gen-  
uine appreciation of the respect,  
courtesy and friendliness shown me  
during my stay in this country.

"I am especially grateful for the  
many attentions and inquiries received  
from all quarters during my recent il-  
lness, and I go home with a most vivid  
recollection of the good will and  
friendliness and the admiration shown  
for Japan, which has, I am convinced,  
grown immensely both numerically  
and in intensity.

"Availing myself of this occasion I  
deem it fit that I should express my  
heartfelt appreciation of the disinter-  
ested, energetic and unremitting efforts  
of the president for the successful in-  
itiation and consummation of peace,  
and to him humanity owes a debt of  
deep gratitude.

### Japan's Position in the Orient.

"As a result of the war Japan will  
undoubtedly secure a well recognized  
position in the far East. I have, how-  
ever, no hesitation in affirming that  
there will be no break in the con-  
tinuity of Japan's foreign policy.  
Steadily and firmly adhering to the  
policy of peaceful expansion in com-  
merce and industry, Japan will devote  
all her energies with renewed vigor  
to the development of her natural re-  
sources. She will continue as in the  
past to scrupulously respect the ac-  
quired rights and legitimate interests  
of the powers in the far East; nor  
will she attempt to interfere in the  
least with the logical and legitimate  
development of those interests.

"In her pursuit of commercial and  
industrial expansion Japan will count  
upon the co-operation of the United  
States, whose interests in the far East  
are identical with her own and whose  
traditional friendship for Japan has  
found fresh confirmation in the ap-  
preciation and sympathetic attitude  
maintained by the American people  
through the tremendous struggle in  
which Japan has been engaged."

Baron Komura and his party will  
leave this city during the day for  
Montreal, where they will proceed to  
Vancouver over the Canadian Pacific  
line. No stops other than those nec-  
essary in switching will be made and  
the party expects to reach Vancouver  
on Oct. 2. The party will board the  
steamship Empress of India and sail  
for Japan that day.

### Horse Trainer Shot Dead.

Stamford, Ky., Sept. 27.—J. F. Far-  
ris, the horse trainer, was shot to  
death here Tuesday by R. E. Lee  
Sims, owner of several thoroughbred  
horses. There were no witnesses to  
the trouble that led to the murder. It  
is said the men had not been friendly  
for several months.

## GROWS WORSE DAILY

SITUATION AT BUDAPEST FAILS  
TO SHOW ANY SIGNS OF BE-  
COMING BETTER.

## RADICAL ELEMENTS ACTIVE

THREATEN TO SWAMP MODER-  
ATES AND HURRY HUNGARY  
INTO WAR.

London, Sept. 27.—The correspond-  
ent of the Morning Post at Budapest  
says:

"The situation here grows worse  
daily. The radical elements threaten  
to swamp the Moderate party and to  
hurry the country into irreparable ac-  
tion. Public references to the dynas-  
ty are made in a tone which it is im-  
possible to reproduce. The principal  
newspapers urge the formation of one  
great party under Francis Kossuth.  
This is supported by Kossuth, Count  
Apponyi and Baron Banffy."

Other special dispatches represent  
the situation as serious, but say it is  
evident that the conservative ele-  
ments hesitate to countenance the  
driving of matters to a point where  
compromise would be impossible.  
The Daily Telegraph's Budapest cor-  
respondent says that extreme excite-  
ment prevails, accompanied by a de-  
termination to keep up the struggle  
to the bitter end. The correspondent  
continues:

"The independent party is believed  
to have secured 100,000 new ad-  
herents, while the old Liberal party has  
broken up. The partisans of Kossuth  
have also obtained the upper hand in  
quarters which formerly were domi-  
nated by the Socialists."

### Trying to Allay Excitement.

According to all reports, however,  
the coalition leaders are doing every-  
thing to keep popular excitement  
from reaching a point where it can-  
not be controlled, realizing that the  
passions of the people have already  
been inflamed by the reports of the  
emperor's reception and treatment of  
the Hungarian representatives at  
Vienna Saturday last and that it  
might be easy to bring about an ir-  
reparable disaster. The coalition lead-  
ers have issued a proclamation stat-  
ing that they are determined to es-  
chew all revolutionary methods. Kos-  
suth is quoted as saying he believed  
that the king-emperor would yet  
change his mind and grant conces-  
sions to Hungary.

Both in Budapest and Vienna it is  
realized that much depends on the  
outcome of the great meeting of all  
the coalition parties to be held at  
Budapest Oct. 3, at which it is un-  
derstood a plan for legalized opposi-  
tion will be formulated.

The wildest rumors are afloat in  
Budapest. One paper publishes a  
statement that the king-emperor in-  
tends to resign the crown of Hungary

in favor of Prince Francis Ferdinand  
and other similarly unauthorized  
statements are made.

According to the consensus of the  
reports the king-emperor has de-  
termined to appoint a cabinet with  
Count Johann Zichy at its head. Count  
Zichy is expected to reach Vienna  
soon, but his friends declare that he  
will not accept the mission under the  
present circumstances.

### SHAW TO QUIT THE CABINET.

Secretary of the Treasury Will Retire  
From Office in February.

Des Moines, Sept. 27.—Secretary of  
the Treasury Leslie M. Shaw will  
leave the cabinet Feb. 1, 1906. He  
makes the definite announcement in a  
letter to the Polk County Republican  
club.

In his letter answering a request for  
a date for an address Secretary Shaw  
stated that he would be busy pre-  
paring for the coming session of con-  
gress and will be unable to return to  
Iowa until Feb. 1, upon which date he  
expected to retire from the cabinet.  
Shaw will then begin his presidential  
campaign among his friends.

### AWAITING CALHOUN'S RETURN.

President Delays Action on Franco-  
Venezuelan Dispute.

Oyster Bay, L. I., Sept. 27.—No  
communication from France regarding  
her difficulty with Venezuela yet has  
reached President Roosevelt, but he is  
giving attention to the subject. No  
action on it will be taken by the  
American government until W. J. Cal-  
houn, the president's special commis-  
sioner to Venezuela, shall have sub-  
mitted a report of his investigation.

### RUNS DOWN A SCHOONER.

Steamer Bayport Sinks the Job H.  
Jackson.

Newport News, Va., Sept. 27.—The  
steamer Bayport, outward bound from  
this port for Boston with 2,400 tons of  
coal, ran down and sank the three-  
masted schooner Job H. Jackson, from  
New York for Norfolk, near Thimble  
shoal light in Chesapeake bay, Mon-  
day night at 7:40 o'clock. Charles  
Johnatse, a Norwegian of the Jack-  
son's crew, who was at the wheel  
when the collision occurred, was  
washed overboard and drowned, and  
the mate, T. J. Robbins, had his right  
arm broken. After the collision the  
Bayport's boat rescued Captain Will-  
iamson, Mate Robbins and four others  
of the crew of the Jackson and  
brought them here.

After rescuing the men the Bayport  
dropped anchor within the Horseshoe  
near Cape Henry, and at 3 a. m. a  
schooner supposed to be the Ann J.  
Trainer, ran down the Bayport, badly  
damaging her. The schooner had her  
fore rigging carried away. After the  
collision the Trainer proceeded to  
Norfolk. No one on either ship was  
injured.

Although neither the master of the  
Bayport nor of the Jackson would give  
out any information concerning the  
first collision, the accident is attrib-  
uted to the erratic movements of the  
schooner.

### One Killed and Another Hurt.

Cincinnati, Sept. 27.—Dr. Lucellus  
Hussey, aged seventy-three years, was  
instantly killed and Ephiam Herring-  
ton, aged seventy years, was serious-  
ly injured Tuesday while crossing the  
Big Four tracks in a buggy near Lock-  
land, O.

## Conviction Follows Trial

When buying loose coffee or anything your grocer happens  
to have in his bin, how do you know what you are  
getting? Some queer stories about coffee that is sold in bulk,  
could be told, if the people who handle it (grocers), cared to  
speak out.

Could any amount of mere talk have persuaded millions of  
housekeepers to use

### Lion Coffee,

the leader of all package coffees for over a quarter  
of a century, if they had not found it superior to all other brands in  
Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE  
can be due only to inherent merit. There  
is no stronger proof of merit than con-  
tinued and increasing popularity.

If the verdict of MILLIONS OF  
HOUSEKEEPERS does not convince  
you of the merits of LION COFFEE,  
it costs you but a trifle to buy a  
package. It is the easiest way to  
convince yourself, and to make  
you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages,  
and reaches you as pure and clean as when it left our

## PALMA'S PARTY VICTORIOUS.

President of Cuba Certain to Be Again Elected.

Havana, Sept. 26.—Complete returns from the entire island, which have been delayed owing to the bad condition of the telegraph service, show that in the elections Saturday last for members of the election board the supporters of the movement were victorious in every province, not having lost one important place. The victory was so complete that it is now generally admitted to mean the election in December of President Palma and the election of the vice presidential candidate, Mendez Capote, the leader of the Moderate party.

## DAME RUMOR.

## Dangerous Vertigo.

Dizziness or Swimming of the Head Associated With a Sense of Fullness, Dull Pain or Nervous Sick Headache is a Certain Indication of an Outcome Apoplexy or Paralysis

## Dr. A. W. Chase's Nerve Pills.

If the person subject to attack of dizziness or swimming of the head, commonly called vertigo, would only stop to realize that these symptoms are not a disease in themselves, not temporary ailments, but the plainest sort of warnings from nature of grave troubles of deeper origin, of an exhausted nervous system or of an oncoming apoplexy, epilepsy or paralysis, the matter would receive prompt attention. Dr. A. W. Chase knew this and provided the cure in his celebrated Nerve Pills, a medicine that brings back the glow of health and strength by its power to furnish just what the ill fed, half starved nervous system needs, good, rich wholesome blood and nerve force or energy.

Mr. E. Smith, of No. 1 Union Street, Troy, N. Y., says.

I used to suffer constantly from nervous headache and dizzy spells. They came on at any time and in any place. I was never safe from them—stopping over always resulted in vertigo—my head pained me as well. I got a box of Dr. A. W. Chase's Nerve Pills and they cured the trouble rapidly, easily and completely. It is the best medicine I ever took. I am as sound as a dollar again in every particular and very glad to recommend it to any one in a similar condition as a safe and certain cure. 50c a box at dealers or Dr. A. W. ## CALL ON JOHN D. ROCKEFELLER.

Cleveland Men Pay Their Respects to the Oil Magnate.

Cleveland, Sept. 27.—Several hundred representative men of Cleveland called upon John D. Rockefeller at his home in Forest Hill Tuesday afternoon and through Andrew Squire, a prominent attorney, and L. E. Holden, proprietor of the Cleveland Plaindealer, expressed to Mr. Rockefeller their esteem for him as a citizen and as a great business man.

The gathering included merchants, lawyers, clergymen, educators and men in humbler walks of life. Forming at the lodge at the entrance to the estate, the assemblage walked up the steep hill to the old fashioned summer home, overlooking the city and country. Mr. Squire and each of the delegation were presented to Mr. Rockefeller. There were expressions of goodwill from each to which Mr. Rockefeller responded.

After each guest had been presented to Mr. Rockefeller an adjournment was taken to the veranda and Mr. Squire made an address to Mr. Rockefeller giving expression to words of eulogy and regard for him.

After a brief address by L. E. Holden, president of the Plaindealer Publishing company, in which he spoke in appreciation of Mr. Rockefeller's numerous benefactions to the city, Mr. Rockefeller made a brief address in response to the greetings that had been spoken. His remarks were almost entirely reminiscent of his residence in Cleveland. In speaking to the younger men present he said there was nothing more in life than mere money getting.

## BRYAN WRITES TO ROOSEVELT.

Urges the President to Stand by His Guns.

Lincoln, Neb., Sept. 27.—W. J. Bryan has written another letter to President Roosevelt, which was made public Tuesday night. He says in part:

"Permit a parting word. You have the contest of your life before you, and I desire to render you all the assistance in my power. You have asked congress to enact a law so enlarging the powers of the interstate commerce commission as to permit it to fix and enforce a reasonable freight rate, and the railroad lobby was strong enough to stop in the senate the bill passed by the house. The railroad magnates expect to block the passage of the bill again.

"Stand by your guns. You have developed a reform element in the Republican party; you must lead it or suffer the humiliation of seeing the leadership pass to someone else.

"Go forward! You owe it to yourself, you owe it to your party, and more than all, you owe it to your country."

## KILLED BY BANDITS IN MEXICO.

Mine Foreman and His Assistant Slain and Robbed.

San Antonio, Tex., Sept. 27.—A special to the Express from Guadalajara, Mex., says:

Manuel Parades, shipping foreman of the Buena Vista mines in the La Yesha district of Tepic, and two assistants were held up by bandits about six miles from the town of Hostotapaquillo, Jalisco, while returning to the mine with \$6,000 in silver and bills for the payments of the miners. Parades and one of his assistants were killed and about \$5,000 were secured. The other assistant escaped into Hostotapaquillo with about \$1,000 of the money.

He reported that at least twelve men were engaged in the hold-up. The body of Parades was literally riddled with bullets. The other Mexican killed was shot five times.

# PRESIDENT TIGHE IS IN BRAINERD But Has Very Little to Say Re- garding the Water Works Question

# HAS NOT MET THE COMMITTEES Does Not Think Much of Ahrens' Proposition Which Has Been Discussed

President Tighe, of the Minnesota Water Works, is in the city today on business connected with the plant in this city, but has little to say for publication on the question which is still in the process of solution by the city council, the Commercial Club and Mr. Tighe. He did state that he was a young man when this water works matter first came up for solution but that he had "grown grey in the service."

H. A. Harrison, who is here from Stillwater, is gathering some data for Mr. Tighe, but this information has not as yet been compiled so that Mr. Tighe has nothing to say.

"Do you think that the hydrants ought to be painted red; do you think it would add to the appearance of the city?", said the genial water works man to THE DISPATCH reporter. The latter ventured an expression that it might be a useless expense for him whereupon President Tighe said: "Well, when does this franchise expire? How many years have we yet? I really have so many of these dates to remember that it is hard to specify."

The conversation drifted to the newspaper business in Mexico where President Tighe visited recently. He said that a clever young newspaper man came to him and asked for an interview, but informed him at the outset what he was expected to say. The interview must of necessity extol the vast possibilities of Mexico. The papers there have no court or police news, everything in them runs to the social and industrial questions of the day, and seem rather odd as compared with the papers here.

The newspaper man referring back to the water works question learned from Mr. Tighe:

"There are certain traditions in the history of every place. One of them in Brainerd is that Gilbert lake is 165 feet deep at some places. Another is that Ahrens' hill is the highest point between the Gulf of Mexico and some other point I don't know where. Now Mr. Ahrens may be right but I think the hill is only about 100 feet high and it is two miles away from the city. This would not give enough pressure, only about 35 pounds."

A. R. Bass, of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys. Was cured by Foley's Kidney Cure. H. P. Dunn & Co.

# HAS STRUCK LITTLE FALLS

Iron Ore Craze Has Caught on There--D. H. Freeman of St. Cloud is Said to Be Interested

The following telegram from Little Falls shows that there is something doing there in the iron ore business: "Some excitement is running rife in this region over the fact that at Randall, a small town on the Northern Pacific's main line, ten miles northwest of Little Falls, there is an extensive deposit of magnetic iron ore. The lands have been thoroughly examined, and that the deposits are of commercial value is shown by the fact that reality in that location has recently been purchased at far above its farming or stock value. D. H. Freeman of St. Cloud has had the country thoroughly explored and has bought many tracts, paying in some instances as high as \$50 an acre. Lands that were transferred a year or two ago at \$7.00 an acre have recently sold at several times that price. Other persons have also closely examined the district. By the use of dip needles in the hands of experienced mining engineers a lode of magnetic iron ore has been located that runs through section 6 in Randall township and through sections 31 and 32 in Clough town. The investigation shows that the lode is in some places about 600 feet wide and narrower at other places. It makes some such a curving course as a river might. A thorough examination of the surrounding country for several miles does not show the existence of magnetic ore outside of the lode mentioned."

This stock was bought from some of the leading promoters of the mine and others and it is said the aggregate will reach about \$35,000.

It is claimed that this move is an indication of the value of the mine; that the company of capitalists which Mr. Dunn represents have a world of wealth and that they expect to develop the mine.

# MUSIC AND DRAMA.

"THE MARRIAGE OF KITTY" TONIGHT.

Tonight "The Marriage of Kitty," which was presented on Manager Walker's circuit last season and which was one of the most satisfactory comedies offered during the past season, will be at the Brainerd opera house. There is not a false or dissonant note in the entire evening's performance. The ease, precision and refined humor of the members of Jules Murry's Comedy Company is pleasing to the eye and mind jaded with a surfeit of garish displayed. The

building of the comedy is clear cut, logical and natural. Its language pointed, piquant and sparkling. Its interpretation excellent throughout. Manager Walker announces an opportunity to enjoy the vagaries, whimsicalities and witticisms of "The Marriage of Kitty" at the Brainerd opera house tonight, with clever Alice Johnson in the title role. Those who are absent when this charmingly constructed play is presented here tonight will miss a rare opportunity. Prices \$1, 75, 50 and 25c.

Testimony of Brainerd people proves it.

Here's a Brainerd case: Mrs. S. Brain, of 601 S 10th St., Brainerd, Minn., says: "I could not do other than endorse Doan's Kidney Pills, and time after time I have recommended them to persons suffering from kidney trouble. I learned the value of this remedy through experience. When I first got Doan's Kidney Pills at H. P. Dunn & Co's. drug store I was suffering from severe symptoms of kidney complaint. There was a constant dull aching in my back and the kidney secretions were irregular and distressing. From both these causes my rest was broken at night and in the morning I was usually languid and all tired out. Doan's Kidney Pills made a great change in my condition and after continuing the treatment I was so vastly improved that I felt warranted in recommending this remedy through the local papers. I have never changed my mind about Doan's Kidney Pills and have also found that Doan's Ointment is unequalled for itching and bleeding hemorrhoids. ## THE NEW WAY—AND THE OLD

*A revolution in cigar production as great as the evolution in railway transportation from the days of Stephenson's first locomotive to the Twentieth Century Limited!*

The American Cigar Company has perfected at a cost of millions of dollars a scientific and heretofore unknown method of *thoroughly* fermenting and truly *blending* the tobacco leaf.

The fermenting process alone would produce from the same tobacco a cigar that you would recognize as twice as good. It removes every last lingering trace of the rawness that spoils the aroma, the harshness that burns the tongue and the bitterness that ruins the flavor.

The new *blending* process thoroughly combines the aromatic qualities of the various tobaccos required for each cigar before they go to the cigar-maker's table. The ordinary factory-operation, misnamed "blending," is only a mixing by the cigar-maker of tobacco taken from two or three small piles of cured leaf—a mixing which

results in nothing in the world but a raw "tobacco sandwich."

The American Cigar Company's system provides not only for making better cigars but for keeping them good. After careful inspection at the factories, the finished cigars are stored in great "humidors" under the ideal Cuban climatic conditions, where their quality is constantly improving like rare old wine, till they are ready to go to the dealer. And when these thoroughly-seasoned cigars are ready to be shipped, not only are they boxed and sealed in the usual way, but the boxes are *double-sealed*, a tough water-proof parchment wrapper with the "Triangle A" seal in red on each end.

One of the best examples of this new way of producing cigars is the

## "ANNA HELD" CIGAR

5 Cents

The Anna Held cigar is rolled from blended tobaccos selected according to a formula that, if made by any other system, would make the same cigar cost 10 cents instead of five.

It is a smooth, even-burning cigar of faultless workmanship and of delightful and distinctive flavor—regularly smoked by thousands of men who know *what* they like and *why* they like it.

Everyone Ought to Grasp this Opportunity.

To have even a simple case of indigestion is to have "inside information" of suffering that warns of serious trouble in the future, unless the digestive system is strengthened.

If you cannot eat and digest three good, square and satisfying meals each day without discomfort, your stomach needs Mi-o-na tablets. They are not a mere temporary relief, but are composed of valuable medicinal agents which strengthen the digestive organs, and cure and prevent stomach troubles.

When there are pains or distress after eating, head aches, belching of gases, a sour taste in the mouth, dizziness, heart

burn, specks before the eyes, furred tongue, sleeplessness, nervousness, or backache, the stomach needs the help of Mi-o-na.

Every reader of The Dispatch should grasp the opportunity offered by H. P. Dunn & Co. to try Mi-o-na at their risk. Just one little tablet out of a 50 cent box of this remedy before each meal for a few days, and you will soon have a strong stomach and perfect health.

Mr. Stevens informed the correspondent that the new 1,000-foot dock at La Boca will be finished Sept. 30, that the dock at Cristobal will be completed by the middle of October, and that the work on the railroad to be connected with the canal zone is advancing satisfactorily. Over 2,000 new laborers from Barbadoes and Colombia have been employed since Sept. 1.

#### WATCHMAN FATALLY WOUNDED.

Shot While Trying to Eject a Man From a Hospital.

Philadelphia, Sept. 27.—Samuel Barr, sixty-five years old, a watchman at the Pennsylvania hospital for the insane in West Philadelphia, was shot four times and perhaps fatally wounded Tuesday night while attempting to eject a man who is said to have had no right in the institution. Fred W. Long, aged twenty-one, is under arrest charged with having fired the shots. Long, according to the police, confessed to the crime and said that he had gone to the institution with the intention of committing suicide in case he should fail to persuade a young woman attendant at the hospital to reconsider her refusal to marry him.

#### \$100 REWARD. \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

#### MILITARY SURGEONS MEET.

Statistics of Major Seaman Sharply Criticized.

Detroit, Sept. 27.—An attack Tuesday by Dr. Charles D. Stokes, a surgeon in the United States army, on statements made by Major Louis L. Seaman of New York in utterances contrasting the results obtained during the Russo-Japanese war by the Japanese medical officers with the medical history of the Spanish-American war and Philippine insurrection, was the feature of the opening day of the fourteenth convention of the Association of Military Surgeons of the United States. Dr. Stokes sharply challenged the accuracy of a number of Major Seaman's statements and statistics.
